
LEAFSONG RETREAT
SECTOR MU, GREATER NOIDA

LEAF
SONG
Combining the elements of a half turned leaf, a musical note and the letters 'L' and 'S' from the name itself, the logo was created.

Urban Resort

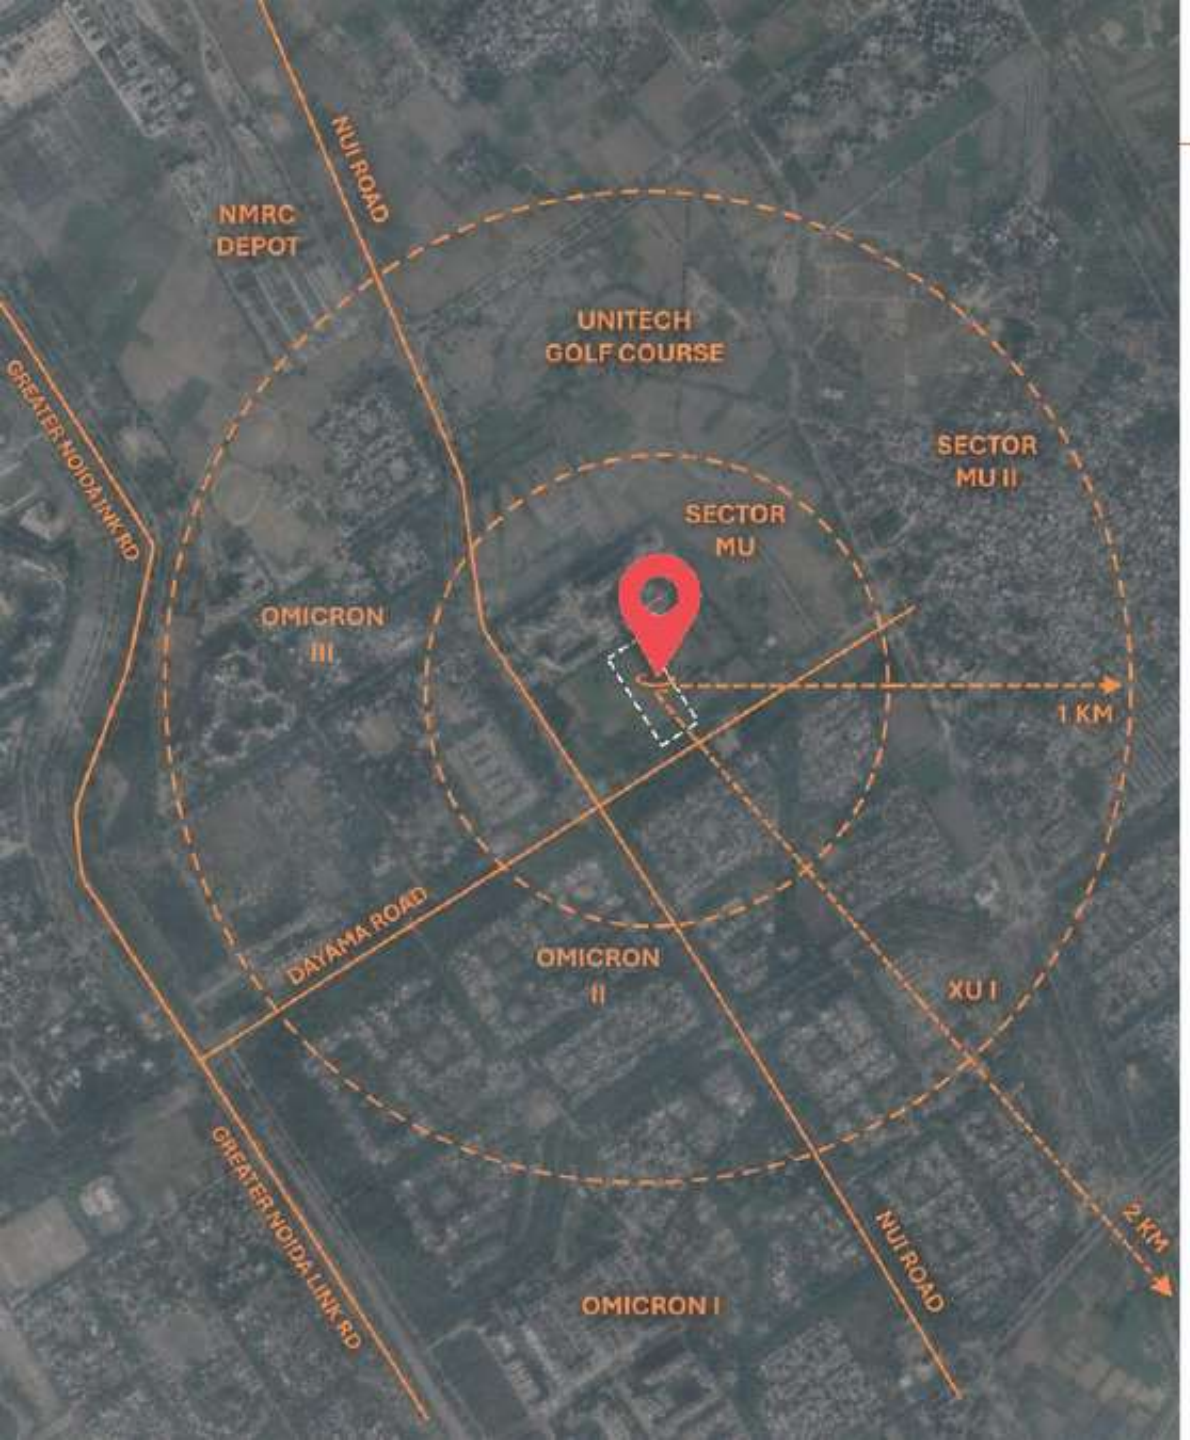

In a city that gives us everything except pause, homes must do more than shelter – they must restore. Our project delivers a true urban retreat, offering a home that feels like a retreat, without leaving the city.

Live Slow. Live Well. Live Here.

"Live Slow" is about designing the outdoors as an antidote to fast, high-pressure urban life. Spaces that gently encourage residents to breathe, linger, walk, sit, and connect.

The Arrival

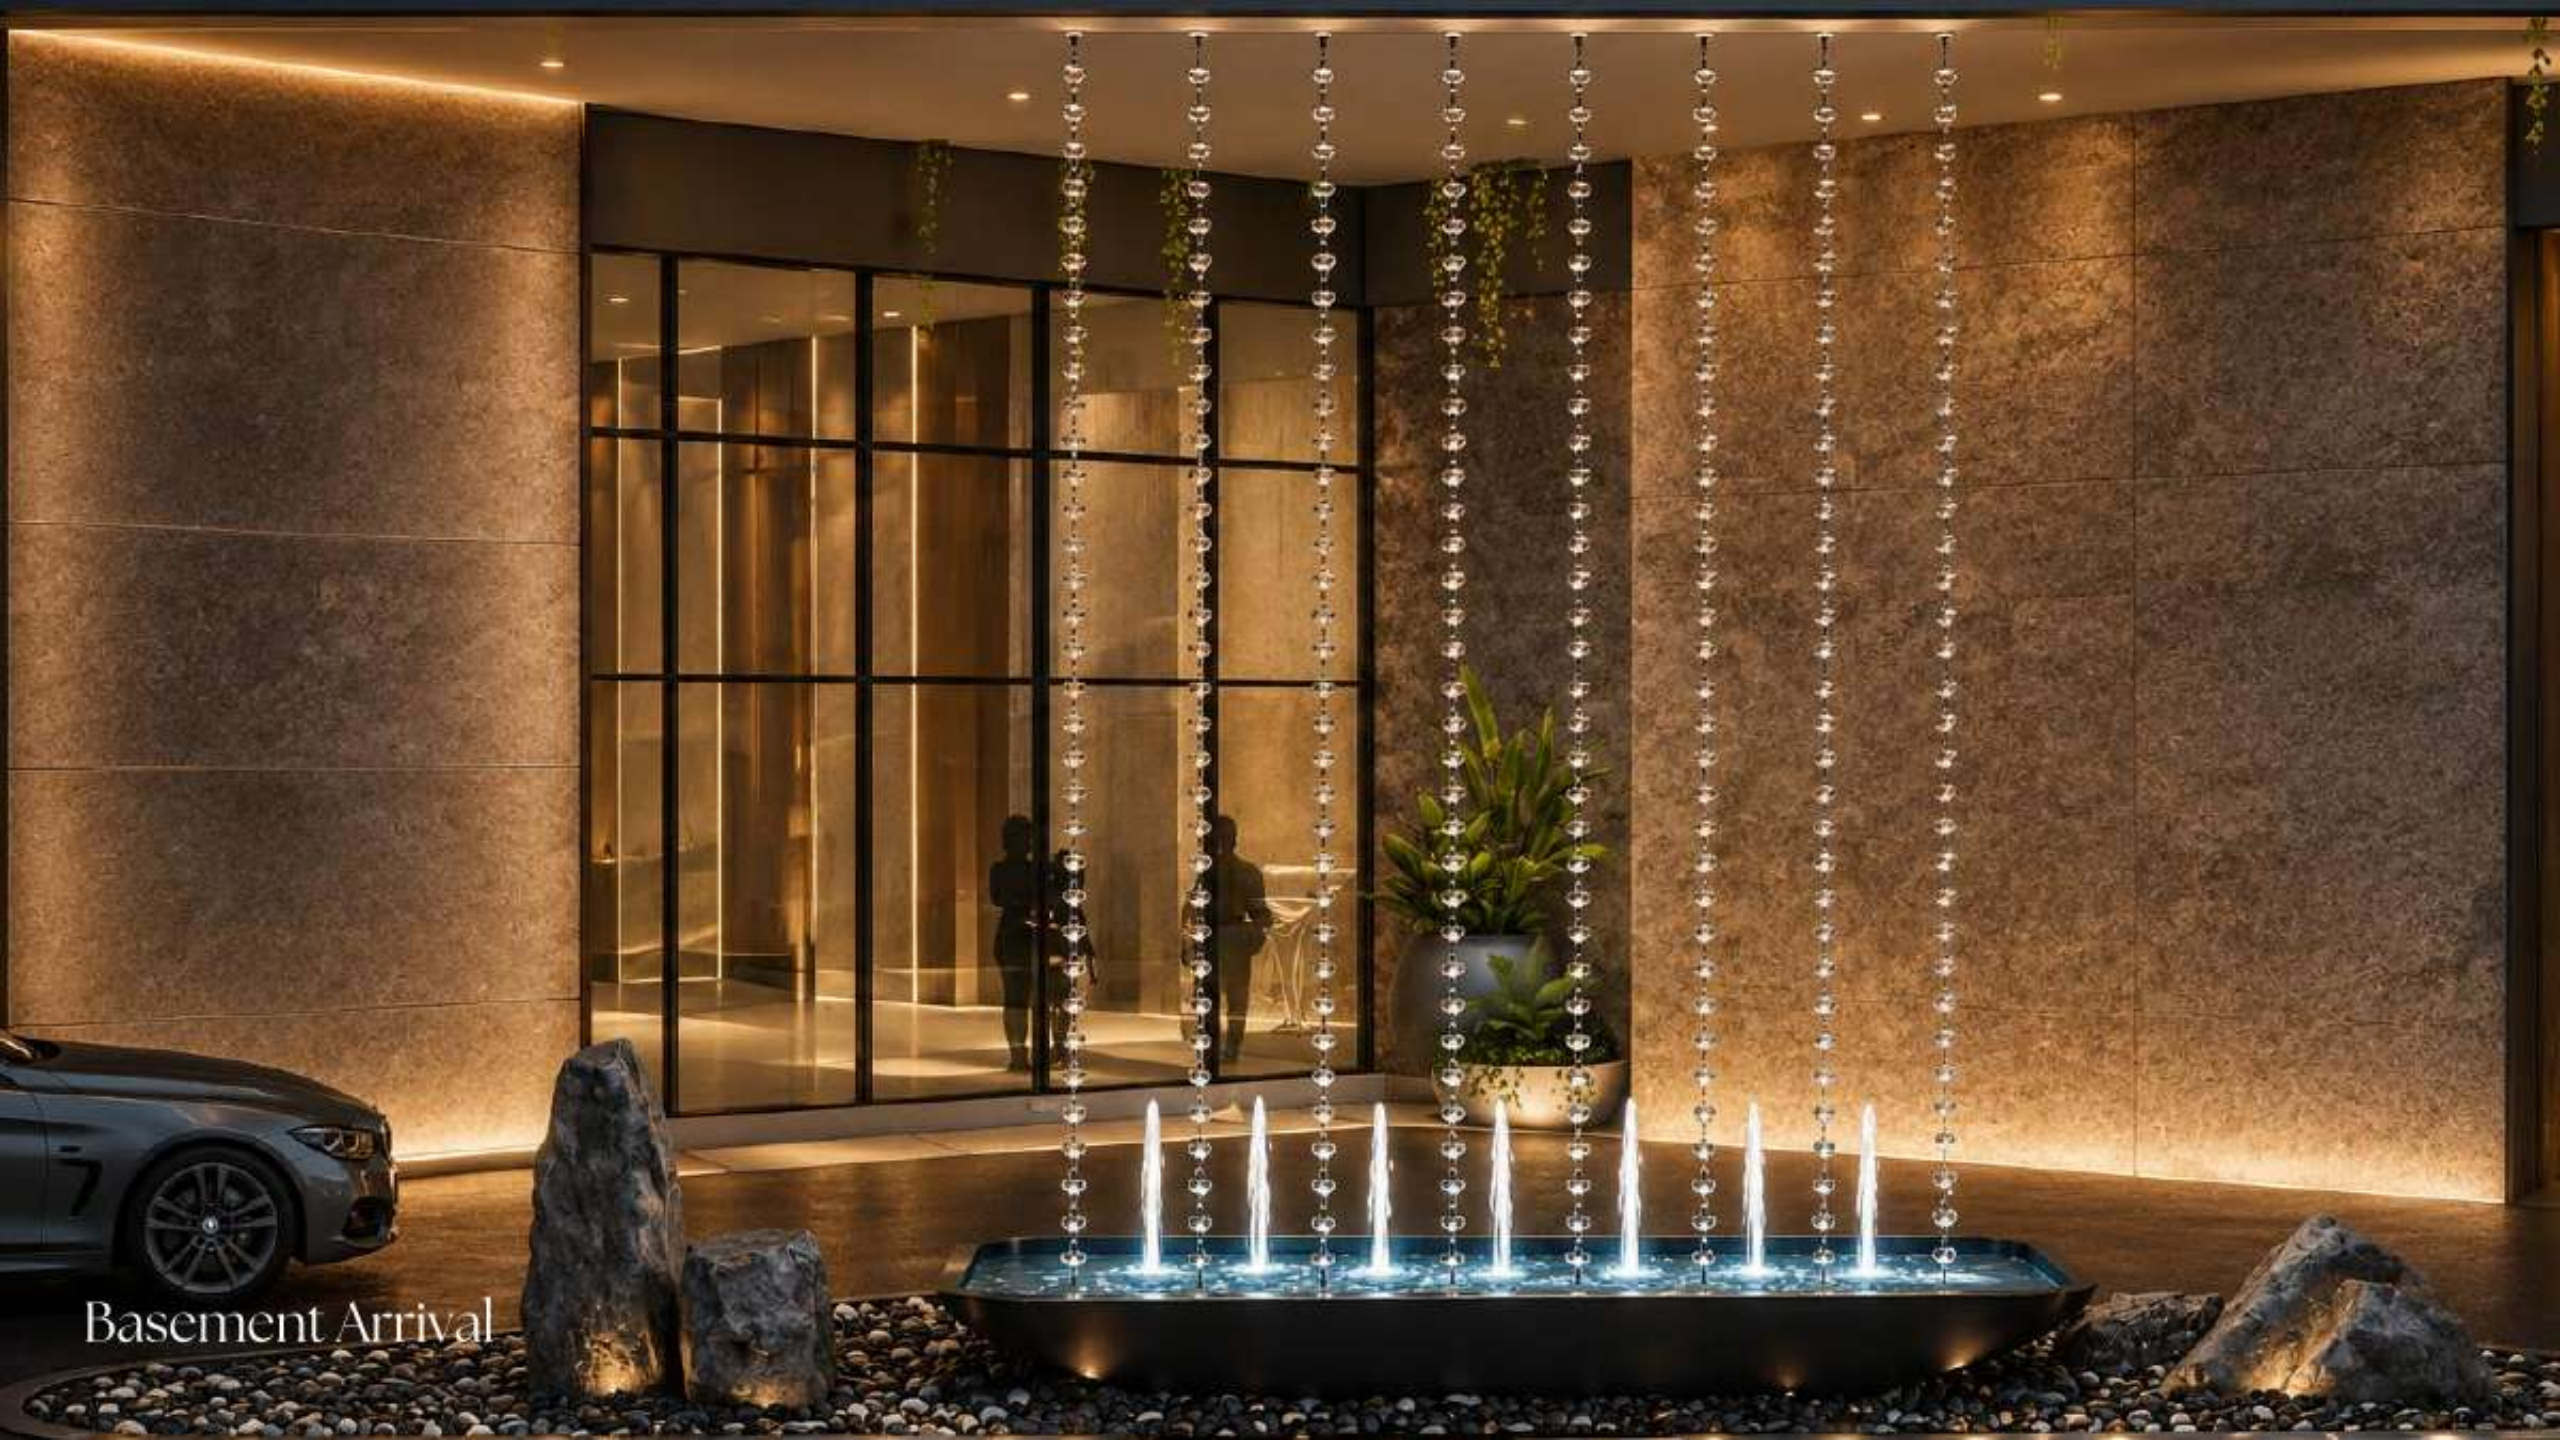

More than access — a crafted moment of arrival. Designed to feel less like a security checkpoint and more like a seamless homecoming, welcoming you into the space before you even step through the door.

Arrival Experience

All vehicular movement, including the primary drop-offs, happens at the basement level, where expansive cut-outs beneath the three towers invite natural light. From here, the arrival journey unfolds through green courtyards within the lobbies, transforming it into a vibrant and seamless transition from arrival to home.
